

Fact-Finding-Mission ?Energy Efficiency and Contracting Models?

On behalf of the German Federal Ministry of Economic Affairs and Energy and its Mittelstand Global ? Energy Solutions Made in Germany Initiative, eclareon organizes a fact-finding-mission for company representatives and decision-makers from Turkey to Germany. The fact-finding-mission takes place from 05.-07. December 2018. The mission will enable you to gather first-hand information on Energy efficiency in buildings and contracting models made in Germany and to establish business contacts with German companies.

A networking event and information seminar will be held on 05. December 2018 in Berlin. The event provides insight into the current situation, trends and prospects for German energy solutions with regard to Energy efficiency in buildings and contracting models. On the following days, on-site visits to see best-practice technology applications and/or measures are planned for you in Berlin & surroundings. You will benefit from a comprehensive information and visitor programme designed to foster the transfer of expertise. Representatives from state-owned and private companies, grid operators, ministries, public authorities and energy associations who want to gain a first-hand insight into German energy solutions are welcome to join the fact-finding-mission.
